

Wines for Humanity partners with Churches United to help individuals in our community from becoming homeless.

For every bottle of wine that is purchased through a *Wines for Humanity* party, a portion is donated to the Churches United CareLINK program.

CareLINK

CareLINK is a program coordinated by Churches United, that connects churches and the faith community to individuals in need of emergency assistance.

Last year, thanks to donations from churches and individuals over 250 families were helped with over \$40,000 in assistance. Needs that were met included:

- Rent deposit
 - Rent
 - Utilities
- Prescriptions and specific medical needs
 - Work related expenses
 - Other basic living needs

Thank you *Wines for Humanity* for supporting the QC Community and the CareLINK program operated by Churches United!
